### **DETAILED ACTION**

This Application is in response to the Amendment and Remarks filed on June 17, 2009.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 11, line 1, after "in claim" delete 10 and insert in its place - - 1 - - .

In claim 12, line 1, after "in claim" delete 10 and insert in its place - - 1 - - .

This application is in condition for allowance except for the presence of claims 3, 6, and 22-28 are directed to an invention non-elected without traverse. Accordingly, claims 3, 6, and 22-28 are been cancelled.

***Allowable Subject Matter***

Claims 1, 2, 4, 5, 7-9, 11-19, 21, 29, and 30 are allowed.

The following is an examiner's statement of reasons for allowance: the applicant's arguments and Affidavit (filed June 19, 2009) with respect to the Related Art Figures 1-4 are persuasive. The applicant asserts that the portion of the Related Art Figures 2 and 3 relied upon in the 35 USC Rejection of the previous Office Actions do not constitute what is considered Prior Art due to the fact that the disclosure constitutes part of the present invention. As stated in the applicant's specification states (page 10) "it should be noted that the relationship of FIG.2 is obtained by the inventor of the present invention in the investigation constituting the foundation of the present invention." From these arguments, the examiner is convinced that the disclosure relied upon for the 35 USC 103 Rejection does not constitute Prior Art and therefore the usage of the Applicant's Related Art Figures are withdrawn.

Therefore, in re claim 1, the prior art references, alone or in combination do not show a semiconductor device, comprising: a substrate; a first multilayer interconnection structure formed over said substrate; and a second multilayer interconnection structure formed over said first multilayer interconnection structure, wherein said first multilayer interconnection structure includes a first interlayer insulation film and a first interconnection layer; said second multilayer interconnection structure includes a second interlayer insulation film and a second interconnection layer; a pillar being provided on a device isolation structure on a substrate, wherein said first interlayer

insulation film has a first Young modulus and said second interlayer insulation film has a second, larger Young modulus than said first Young modulus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
